

ONCOMMAND™ PREVENTIVE MAINTENANCE

CHANGE THE WAY YOU DO BUSINESS

ONCOMMAND™ PREVENTIVE MAINTENANCE

MINIMIZE COSTLY DOWNTIME, KEEP YOUR VEHICLE RUNNING AT ITS BEST AND MAXIMIZE YOUR VEHICLE'S RESALE VALUE.

IT'S NO SECRET THAT PREVENTATIVE MAINTENANCE CAN ADD TO ANY VEHICLE'S LIFE SPAN.

When you don't have time to spare, it can be difficult to ensure that your vehicle is regularly checked and serviced.

That's why, with customer satisfaction as its ultimate goal, International® Truck offers OnCommand™ Preventive Maintenance, the most comprehensive preventative program available.

QUALITY SERVICE

OnCommand Preventive Maintenance ensures that your vehicle will get the best parts, premium oil and filters, and that it will be serviced exclusively by factory-trained and certified technicians. So you'll know the job is done right the first time, every time.

CONSISTENCY & VALUE

With OnCommand Preventive Maintenance, you can count on outstanding service wherever you need it. And thanks to standard pricing and warranty on all parts and services, you'll get the same great savings and reliability whether you're 3 miles or 3,000 miles from home.

CONVENIENCE

International dealer locations feature extended service hours and, because International has such a vast parts inventory network, even the most hard-to-find parts are readily available.

VERSATILITY

OnCommand Preventive Maintenance can be purchased the way that's best for you: You can participate on a job-by-job basis, or you can pre-purchase and ensure low prices for an extended period of time. You don't have to make unwanted commitments to take advantage of OnCommand Preventive Maintenance. Nor do you have to drive an International® truck; all makes are eligible for the program.

Additionally, OnCommand Preventive Maintenance services can be paid for by credit card, Fleet Charge® or Fleet Charge® Advantage, and are also available through service contracts on new and used vehicles. Please contact your International dealer for more information.

AVAILABILITY

OnCommand Preventive Maintenance is available at participating locations across North America. See your nearest International Truck dealer for details.

ONE OF THE MOST EXTENSIVE INSPECTION PROGRAMS IN NORTH AMERICA

THREE PROGRAM INSPECTION LEVELS:

QUICK LUBE (32-POINT INSPECTION)

This basic service inspection includes an oil change, chassis lubrication and a review of 32 everyday operational items, such as fluids, wipers, air conditioning, brakes and instrument panel.

"A" SERVICE (73-POINT INSPECTION)

In addition to a lube and oil change, this more advanced inspection includes a complete cab interior inspection and a total inspection outside of the vehicle to check the condition of everything from mirrors and mudflaps to the exhaust and tires. We'll also do a thorough under-vehicle inspection to check transmission levels, springs and other vital systems.

"B" SERVICE (85-POINT INSPECTION)

This inspection includes all of the above procedures and satisfies all of the Department of Transportation annual inspection requirements. As with all of the OnCommand Preventive Maintenance inspections, only premium fluids and the best parts are used, and factory-trained and certified technicians perform all maintenance.
