

## ReNEWed® Power Steering Gears — Quality You Can Rely On

ReNEWed power steering gears offer the best remanufactured power steering components available today.

### QUALITY AND RELIABILITY YOU CAN TRUST

Every power steering gear is remanufactured to meet OEM specifications using ISO-quality certified processes. That means you can rely on the gears and the International® quality you've come to expect.

### DOWNTIME REDUCED

When a truck is in the shop, your business stops. Because all ReNEWed power steering gears are performance and quality tested, you are more likely to stay up and running, ahead of your competition.

### WE'VE GOT IT COVERED

Not all warranties are created equal. International backs ReNEWed products with an extensive nationwide limited warranty covering parts and labor when installed by a contracted International service center.

ReNEWed power steering gears carry a limited one-year, unlimited miles warranty and are locally stocked across 11 distribution facilities in the United States and Canada.

### REBUILT VS. ReNEWed®

Don't confuse the two! Rebuilt transmissions are usually done in a local shop and standards vary widely. Rebuilders do not have access to engineering prints or improvements and can only replace obviously worn or broken parts. Others are cleaned and simply reused. Diagnosing issues can be tricky. Not addressing the cause of failures leads to failure again and again.

No one knows these transmissions better than ReNEWed. Our state-of-the-art facilities utilize the same current assembly processes and quality standards as the OEM plant that built the transmission originally. Put quality, performance and value in your vehicle. Get ReNEWed!
